25X1 1. [] Arthur Lundahl called with reference to H. R. 9981 dealing with geodesy to the U. S. Coast Guard and Geodetic Survey suggesting that Dr. Seoville would be interested in this bill and asked would we procure him a copy. We will also check on the status of this bill.

25X1 2. [] After talking with [] Security, and [] WH, I met with Jay Sourwine, Senate Internal Security Subcommittee staff, to discuss the impending appearance of [] before the Subcommittee. I advised Sourwine that we had had an interest in [] and asked that the subcommittee, if possible, avoid directing questions to her which might tend to pinpoint her association with the Agency. I indicated that this sensitive area of our contacts with her concerned her activities since leaving [] Sourwine said he would not want to be barred from asking her any questions about her activities in [] although he did not want []

25X1 [] I told Sourwine I thought a question of this sort would pose no problem but indicated I would check on this. Sourwine made it clear that he was primarily interested in [] work on the book [] and was most interested in knowing why some changes were made in her translation of the book by [] before the translation was published. He also indicated interest in her activities [] Sourwine also made it clear that he was not sure what to expect from [] and asked that since we had some contact with her if we could provide him with any background material of a biographic nature which might be helpful to him. I told Sourwine I thought we could and said I would provide such information if possible. In the course of our conversation, Sourwine commented that her appearance before the Subcommittee would be in executive session and treated as classified. He also indicated he had taken necessary precautions on her behalf in connection with her appearance. Sourwine expressed concern about [] and specifically mentioned that he understood the narcotics people were looking for her since he had information to the effect that she was wanted as a dope "pusher and user". I told him I had no information on this but would attempt to clarify this for him if I could. WH is preparing biographic data []
